

Testimonials

Hey Juliana,

Thanks again for the one-on-one remote training, I really appreciated it.

When I looked at Quick Books for the first time I was puzzled to say the least. It has sat on my computer since January 2008 doing me absolutely no good. Juliana took two hours and taught me more than I would have ever learned with the tutorials, which baffled me as well. Her personal touch and ability to make you feel like you could accomplish the goal of learning Quick Books, made it even easier for me to learn how to use the software. I am not a financial guru or wiz at all and doing my own books was not a fun idea to me. I have to say that with Quick Books and Juliana's one-on-one training, I feel like I can comfortably do the task of keeping my books.

This is a testimonial of my experience with Juliana during my Quickbooks training that took place on August 15th. Juliana exceeded my expectations with her professionalism, her teaching abilities and her wide range of knowledge. Each question I presented to her was answered with a thorough explanation in a manner that was easy to understand. I would recommend her as a teacher, an advisor and accountant to all those seeking.

Sincerely,
